

**T/110 Model Pump  
Self-priming Pumps - Inox  
"900 r.p.m. - 4 bar" (58 psi)**

Oenological racking pump for wine, must and foodstuffs. The flexible impeller is made in certificated food grade rubber. Suction is ambivalent in both rotating directions and the unbroken flow avoids shaking the transferred juices. The pump is complete with By-Pass and Connectors.

**T/110 Inverter  
with remote radio-  
control  
Code T-110/ICDR**

**From Left to Right: Code T-110/VM-1 speed (900 rpm), Code T-110/FL-Axial 2 speed, Code T-110/A2V**

*All our pumps can be supplied with special motor voltages and special fittings. Do not hesitate to contact us, we have the right pump for you!*
